INDICE DE AUTORES Y TRABAJOS DEL VOLUMEN 27

Alfaro, Gerardo 207
Arañas terafósidas de Costa Rica (Araneae: Theraphosidae). II. *Psalmopoeus reduncus*, redescripción, distribución y el problema de dispersión en terafósidas 301
Arroyo, G. 51
Averza, Aramis A. 189
Bell, W.J. 13
Biological studies on *Botanochara impressa* Panzer, 1789 (Coleoptera; Chrysomelidae) 103
Bionomics of black flies (Diptera: Simuliidae) in Costa Rica. III. Larval population dynamics in five selected streams 135
Bird, Kimon T. 163
Bolaños, R. 57,309
Breed, M.D. 13
Camacho Granados, Lucía 119
Cariotipos de diez especies de serpientes costarricenses de la familia Viperidae 309
Cariotipos de las principales serpientes coral (Elapidae: *Micrurus*) de Costa Rica 57
Centris dirrhoda (Anthophoridae), the bee visiting West Indian cherry flowers *(Malpighia punicifolia)* 203
Ciclo anual en una comunidad coadaptada de colibríes y flores en el bosque tropical muy húmedo de Costa Rica, El 75
Comparative study of the pollen press and nearby structures in the bees of the family Apidae, A 217
Comportamiento decorador con algas en el cangrejo *Microphrys bicornutus* Latreille (Majidae; Decapoda) 321
Cordero, Claudio 207
D'Croz, Luis 189
Eberhard, W.G. 231
Efecto alelopático de *Cupressus lusitanica* Mill. sobre la germinación de las semillas de algunas hierbas 223
Elizondo, J. 51
Estructura del tallo y ontogenia de los diafragmas caulinos en *Phytolacca icosandra* L. 119
Estudio seroepidemiológico del virus *Herpes simplex* tipo 2 en mujeres adultas de Costa Rica 207
Factores selectivos que afectan la tendencia a agruparse en la araña colonial *Philoponella semiplumosa* (Araneae; Uloboridae) 231
Fallas B., F. 135
Flores, Eugenia M. 145
Fournier O., Luis A. 223
Fowler, H.G. 111
Fuentes, Luis Guillermo 207
Fugler, C.M. 1
Errata 329
Género *Anastrepha* (Diptera; Tephritidae) en las principales frutas de Costa Rica y su relación con pseudomiasis humana, El 155
Guevara B., Eric 171
Gutiérrez, J.M. 57, 309

Guzmán E., Héctor M 321
Habib, M.E.M. 103
Hemoglobinopatías poco comunes en Costa Rica 51
Individual variation in the Neotropical salamander *Bolitoglossa peruviana* (Boulenger, 1883) (Amphibia: Plethodontidae) in eastern tropical Ecuador 1
Jiménez, José Miguel 207
Jirón, L.F. 155
Lahmann, E.J. 231
Lines M., Nuria 223
Machado, P.E.A. 7
McIntosh, R.P. 163
Michelim, O.C. 7
Michener, C.D. 13
Montiel L., Mayra B. 171, 177
Morphological changes of the leaf surfaces of *Zea mays* induced by rayado fino virus infection 145
Naoum, P.C. 7
Niche specificities of eleotrid fishes in a tropical estuary 35
Nordlie, F.G. 35
Notes on the marine algae of Guatemala 163
Observaciones sobre la abundancia y diversidad de las poblaciones de peces estuarinos en el Caribe de Panamá 189
Observaciones ultraestructurales en epidermis de hidropteridos 177
Páez, C.A. 51
Phylogeny and relationships among the genera and subgenera of the stingless bees (Meliponinae) of the world 241
Raw, Anthony 203
Responses by a stingless bee to a subtropical environment 111
Rosenfeld, L.G.M. 7
Sáenz, G.F. 51
Seasonal cycles, nests, and social behavior of some Colombian halictine bees (Hymenoptera; Apoidea) 13
Simultaneous ocurrence of Hb C trait and polycythaemia vera 7
Stiles, F.G. 75
Taylor, Richard T. 309
Tejido vascular secundario en yemas de *Blechnum viviparum* (Pteridophyta) 171
Travis, B.V. 135
Valerio G., Carlos E 301
Vargas V., M 135
Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia), between temperate and tropical populations. I. Fecundity, recruitment, mortality and growth in *T. rubescens* . . . 279
Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia), between temperate and tropical populations. II. The age structure of *T. rubescens* 293
Vasconcellos-Neto, J. 103
Villalobos S., Carlos R. 279, 293
Walls, A.B. 1
Wille, Alvaro 217, 241
Zeledón, R. 155

INDICE

FUGLER, C.M. & A.B. WALLS. –Individual variation in the Neotropical salamander *Bolitoglossa peruviana* (Boulenger, 1883) (Amphibia: Plethodontidae) in eastern tropical Ecuador 1

NAOUM, P.C., P.E.A. MACHADO, O.C. MICHELIM, & L.G.M. ROSENFELD. –Simultaneous ocurrence of Hb C trait and polycythaemia vera 7

MICHENER, C.D., M.D. BREED, & W.J. BELL. –Seasonal cycles, nests, and social behavior of some Colombian halictine bees (Hymenoptera; Apoidea). 13

NORDLIE, F.G. –Niche specificities of eleotrid fishes in a tropical estuary..... 35

ELIZONDO, J., G.F. SAENZ, C.A. PAEZ, & G. ARROYO. –Hemoglobinopatías poco comunes en Costa Rica..... 51

GUTIERREZ, J.M., & R. BOLAÑOS. –Cariotipos de las principales serpientes coral (Elapidae: *Micrurus*) de Costa Rica 57

STILES, F.G. –El ciclo anual en una comunidad coadaptada de colibríes y flores en el bosque tropical muy húmedo de Costa Rica..... 75

HABIB, M.E.M., & J. VASCONCELLOS-NETO. –Biological studies on *Botanochara impressa* Panzer, 1789 (Coleoptera; Chrysomelidae)..... 103

FOWLER, H. G. –Responses by a stingless bee to a subtropical environment... 111

CAMACHO GRANADOS, LUCIA. –Estructura del tallo y ontogenia de los diafragmas caulinos en *Phytolacca icosandra* L..... 119

TRAVIS, B.V., M. VARGAS V., & F. FALLAS B. –Bionomics of black flies (Diptera: Simuliidae) in Costa Rica. III. Larval population dynamics in five selected streams..... 135

FLORES, EUGENIA M. –Morphological changes of the leaf surfaces of *Zea mays* induced by rayado fino virus infection..... 145

JIRON, L.F., & R. ZELEDON. –El género *Anastrepha* (Diptera; Tephritidae) en las principales frutas de Costa Rica y su relación con pseudomiasis humana 155

BIRD, K. T., & R. P. MCINTOSH. –Notes on the Marine Algae of Guatemala 163

MONTIEL L., MAYRA B., & E. GUEVARA B. –Tejido vascular secundario en yemas de *Blechnum viviparum* (Pteridophyta) 171

MONTIEL L., MAYRA B. –Observaciones ultraestructurales en epidermis de hidroptéridos 177

D'CROZ, L., & A.A.AVERZA. –Observaciones sobre la abundancia y diversidad de las poblaciones de peces estuarinos en el Caribe de Panamá 189

RAW, A. –*Centris dirrhoda* (Anthophoridae), the bee visiting West Indian cherry flowers *(Malpighia punicifolia)* 203

JIMENEZ, J.M., L.G. FUENTES, C. CORDERO, & G. ALFARO. –Estudio seroepidemiológico del virus *Herpes simplex* tipo 2 en mujeres adultas de Costa Rica 207

WILLE, A. –A comparative study of the pollen press and nearby structures in the bees of the family Apidae 217

LINES M., NURIA, & L.A. FOURNIER O. –Efecto alelopático de *Cupressus lusitanica* Mill. sobre la germinación de las semillas de algunas hierbas 223

LAHMANN, E.J., & W.G. EBERHARD. –Factores selectivos que afectan la tendencia a agruparse en la araña colonial *Philoponella semiplumosa* (Araneae; Uloboridae) 231

WILLE A., –Phylogeny and relationships among the genera and subgenera of the stingless bees (Meliponinae) of the world 241

VILLALOBOS, C.R. –Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia) between temperate and tropical populations. I. Fecundity, recruitment, mortality and growth in *T. rubescens* 279

VILLALOBOS, C.R. –Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia) between temperate and tropical populations. II. The age structure of *T. rubescens* 293

VALERIO G., C.E. –Arañas terafósidas de Costa Rica (Araneae: Theraphosidae). II. *Psalmopoeus reduncus*, redescripción, distribución y el problema de dispersión en terafósidas 301

GUTIERREZ, J.M., R.T. TAYLOR, & R. BOLAÑOS. –Cariotipos de diez especies de serpientes costarricenses de la familia Viperidae . 309

GUZMAN E., H. M. –Comportamiento decorador con algas en el cangrejo *Microphrys bicornutus* Latreille (Majidae; Decapoda) . . . 321

CONTENTS

FUGLER, C.M., & A.B. WALLS. –Individual variation in the Neotropical salamander *Bolitoglossa peruviana* (Boulenger, 1883) (Amphibia: Plethodontidae) in eastern tropical Ecuador 1

NAOUM, P.C., P.E.A. MACHADO, O.C. MICHELIM, & L.G.M. ROSENFELD. –Simultaneous ocurrence of Hb C trait and polycythaemia vera 7

MICHENER, C.D., M.D. BREED, & W.J. BELL. –Seasonal cycles, nests, and social behavior of some Colombian halictine bees (Hymenoptera; Apoidea) 13

NORDLIE, F.G. –Niche specificities of eleotrid fishes in a tropical estuary 35

ELIZONDO, J., G.F. SAENZ, C.A. PAEZ, & G. ARROYO. –Rare hemoglobinopathies in Costa Rica [SPA] 51

GUTIERREZ, J.M., & R. BOLAÑOS. –Karyotypes of the main coral snakes (Elapidae: *Micrurus*) of Costa Rica [SPA] 57

STILES, F.G. –The annual cycle of a coadapted community of hummingbirds and flowers in a tropical wet forest of Costa Rica [SPA] .. 75

HABIB, M.E.M., & J. VASCONCELLOS-NETO. –Biological studies on *Botanochara impressa* Panzer, 1789 (Coleoptera; Chrysomelidae) 103

FOWLER, H.G. –Responses by a stingless bee to a subtropical environment ... 111

CAMACHO GRANADOS, LUCIA. –Structure of the shoot and ontogenics of the cauline diaphragms in *Phytolacca icosandra* L. [SPA] 119

TRAVIS, B.V., M. VARGAS V., & F. FALLAS B. –Bionomics of black flies (Diptera: Simuliidae) in Costa Rica. III. Larval population dynamics in five selected streams 135

FLORES, EUGENIA M. –Morphological changes of the leaf surfaces of *Zea mays* induced by rayado fino virus infection 145

JIRON, L.F., & R. ZELEDON. –The genus *Anastrepha* (Diptera; Tephritidae) in the most popular fruits of Costa Rica and its implication in human pseudomyiasis [SPA] 155

BIRD, K. T., & R. P. MCINTOSH.—Notes on the Marine Algae of Guatemala 163

MONTIEL L., MAYRA B., & E. GUEVARA B.- Secondary vascular tissue in *Blechnum viviparum* buds [SPA] 171

MONTIEL L., MAYRA B.- Ultrastructural observations of the epidermis in hydropterids [SPA] 177

D'CROZ, L., & A.A. AVERZA.- Observations on the abundance and diversity of estuarine fish populations in the Caribbean of Panama [SPA] 189

RAW, A. —*Centris dirrhoda* (Anthophoridae), the bee visiting West Indian cherry flowers *(Malpighia punicifolia)* 203

JIMENEZ, J.M., L.G. FUENTES, C. CORDERO, & G. ALFARO.- Seroepidemiologic studies of *Herpes simplex* type 2 virus in adult Costa Rican women [SPA] 207

WILLE, A. —A comparative study of the pollen press and nearby structures in the bees of the family Apidae 217

LINES, NURIA, & L.A. FOURNIER O.- Allelopathic effect of *Cupressus lusitanica* Mill. on the germination of weed seeds [SPA] 223

LAHMANN, E.J., & W.G. EBERHARD. —Selective factors that affect the tendency to form groups in the colonial spider *Philoponella semiplumosa* (Araneae; Uloboridae) [SPA] 231

WILLE A., —Phylogeny and relationships among the genera and subgenera of the stingless bees (Meliponinae) of the world 241

VILLALOBOS, C.R. —Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia) between temperate and tropical populations. I. Fecundity, recruitment, mortality and growth in *T. rubescens* 279

VILLALOBOS, C.R. —Variations in population structure in the genus *Tetraclita* (Crustacea: Cirripedia) between temperate and tropical populations. II. The age structure of *T. rubescens* 293

VALERIO G., C.E.- Theraphosid spiders of Costa Rica (Araneae: Theraphosidae). II. *Psalmopoeus reduncus*, redescription, distribution and the dispersion problem of theraphosids [SPA] 301

GUTIERREZ, J.M., R.T. TAYLOR, & R. BOLAÑOS.- Karyotypes of ten species of Costa Rican Viperidae [SPA] 309

GUZMAN E., H.M.- Camouflaging with algae in the crab *Microphrys bicornutus* Latreille (Majidae; Decapoda) [SPA] 321
